445 Sri Ayutthaya Road,
Bangkok, 10400 Thailand

July 13, 2017

Dear Sir/ Madam

Subject: Invitation for International Training Course in Palliative Care

Priest Hospital is a government organization. There are well trained staffs with knowledge and experiences in health care provider in the treatment and nursing care of palliative patients and also in other specific areas. Priest Hospital is a tertiary care which has conducted several training, research and development on knowledge and technology in diagnosis and treatment of sick Buddhist monks for over 66 years.

Priest Hospital has the vision to be an excellent health care institute with knowledge and modern medical technology for Buddhist monks. We, now organize this international training course in palliative care nursing management for registered nurses from countries in Asia. The training program aims to train participants in up to date knowledge in Palliative Care Nursing Management. We hope that after finishing the training course, the participants should be able to gain and apply the knowledge in palliative care nursing for patients in their organizations. In addition, the training program would help to develop better relationship and understanding among registered nurses in Asia so that we could work together in research, exchange of knowledge, and also transfer of new medical technology in the future.

In 2017, Priest Hospital conducts the international nursing short course training details as below:

Course: International Training Course in Palliative Care.

Date: August 7th-11th, 2017 (5 Days)

Target group: Registered Nurses

Objective: Providing knowledge of Palliative Care nursing management to international registered nurses

Please publicize this course and we are very welcome to invite nurses in your organization to attend in this training. For more information, please see the attachment. Your participation and cooperation will be really appreciated.

Yours sincerely,

(Mr.Somnuk Aramtiantamrong MD.)

Director of Priest Hospital
